Product

Stone wool is a widely used building material and mainly used for thermal insulation. ROCKWOOL insulation products contribute to energy-efficient and fire safety in buildings with good acoustics and a comfortable indoor climate. Stone wool is available with different densities and thermal conductivities and is applicable in all areas of the building. For the list of products please see Product Identification section available on request.

ABOUT OUR COMPANY AND OUR APPROACH TO MINIMISING OUR OPERATIONAL FOOTPRINT

Founded as a family business more than 80 years ago, today ROCKWOOL Group is the world's leading manufacturer of stone wool. We produce products that are made from stone, one of the earth's most abundant natural resources.

Across the full range of our products and operations, ROCKWOOL is dedicated to enriching modern living. We strive to increase our positive impact on people and society by maximising our positive product impact and minimising our operational footprint. We recognise that operating with integrity and as a responsible business is equally important and underpins everything we do.

To identify the product to which this self-declaration applies, please see Certificate ISO 14021:2016.

RECYCLED CONTENT OF PRODUCTS

EN ISO 14021 defines **recycled content** as the “proportion, by mass, of recycled material in a product or packaging”. It includes:

- **Pre-consumer material:**
- *Material diverted from the waste stream during a manufacturing process. Excluded is reutilization of materials such as rework, regrinding or scrap generated in a process and capable of being reclaimed within the same process that generated it.*
- **Post-consumer material:** *Material generated by households or by commercial, industrial and institutional facilities in their role as end-users of the product, which can no longer be used for its intended purpose. This include returns of material from construction waste and demolition waste.*

For laminated products manufactured in ROCKWOOL Adriatic d.o.o. (Croatia) recycled content is:

greater than 41 %

Pre-consumer material: >40 %¹

Post-consumer material: >1 %

The **recycled content** is calculated in accordance with the international standard EN ISO 14021: 2016

The validity of this declaration is limited exclusively to the products produced at this facility. The producer / declarant is responsible for the information and analyses referred to in this declaration. Any information, evidence relating to this self-declaration can be requested at the following address: info@rockwool.hr

Aleks Fonović, Director

Date: 15.11.2021.
