

ROCKWOOL® BLACK ALUMINIUM FOIL TAPE

Revision Date: 14/08/18

1. Substance/preparation and company name

1.1 Product name

ROCKWOOL® Black Aluminium Foil Tape

1.2 Identified use of product

Designed for taping and sealing exposed edges of black aluminium faced insulation used within HVAC systems.

1.3 Company/producer

ROCKWOOL® Pencoed, Bridgend, CF35 6NY
REACH registration number 01-2119472313-44

1.4 Emergency telephone number

ROCKWOOL® Ltd Customer Support 9am-5pm
Tel: 01656 862621 Email: SDS@rockwool.com

2. Composition/information on ingredients

Chemical nature:

Aluminium 44%
Synthetic rubber based adhesive 22%
Liner (siliconized glassine paper) 34%

Dangerous ingredients:

None

3. Possible hazards

Critical hazards to humans and the environment in general are not known.

4. First-aid measures

General advice:

None

On skin contact:

Wash with soap and water

On contact with eyes:

Not applicable

On ingestion:

Not applicable

5. Fire-fighting measures

Suitable extinguishing media:

Water, foam, dry extinguishing media, carbon dioxide

6. Accidental release measures

Methods for cleaning up:

No special measures necessary

7. Handling & storage

Protection against fire and explosion:

No special measures necessary

Storage:

No special measures necessary

Reference:

Follow technical datasheet

8. Exposure controls/personal protection

Additional information on the layout of technical plant:

(See section 7):

No more measures necessary

Personal protective equipment:

Not necessary

General safety and hygiene measures:

Not necessary

Hand protection:

Not necessary

Eye protection:

Not necessary

9. Physical & chemical properties

Form:

Solid

Colour:

White-transparent

Odour:

Faint specific odour

pH-value:

Not applicable

Change in physical state:

Not applicable

Ignition temperature:

Not applicable

Density (20°C):

Not applicable

10. Stability & reactivity

Conditions to avoid:

No decomposition provided product is correctly processed

Substances to avoid:

None

Hazardous reaction:

None

Further information:

No dangerous reaction provided product is correctly stored and processed.

11. Toxicological information

In our experience and according to information available to us the product is not harmful to health provided it is correctly handled and processed according to the given recommendations.

12. Ecological information

In our experience and according to information available to us the product is not harmful to health provided it is correctly handled and processed according to the given recommendations.

13. Disposal considerations

Industrial waste similar to household garbage

Name of waste:

Pure aluminium self-adhesive tape

14. Transport information

Not classified as hazardous under transport regulations

15. Regulatory information

Labelling according to EEC Directives:

Not subject to labelling in accordance with EEC Directives

National legislation/regulations:

None

16. Other information

The information contained herein is based on the present data of our knowledge and does not therefore guarantee certain properties. Recipients of our product must take responsibility for observing existing laws and regulations.
